

OFFICE FURNITURE TRADE-IN PROGRAM

Save Money. Save Time. Save the Planet.

An office relocation can be a costly and inefficient process when it comes to your company's bottom line. At IWS, we understand the need for a seamless transition that saves your business both time and money. Our Office Furniture Trade-In Program gives you the opportunity to receive fair market value for your existing furniture toward our vast inventory of refurbished furniture. Not only do our refurbished products look like new, but they are reinforced to last longer. By participating in a trade-in, we will design the layout and install the furniture in your new office space prior to you moving out of your existing location saving you days of lost productivity. Your new office space will be move-in ready before you even pack up your old desk. Investing in refurbished products and recycling your old furniture also helps to keep valuable materials out of landfills - so while you're saving green, you're also being green!
